

Experian is a FTSE 100 company and a global leader providing information solutions in consulting, data analysis, credit scoring, related decision support software and various marketing solutions. Employing over 15,000 people in approximately 40 countries, Experian's vision is for its people, data and technology to become a necessary part of every major consumer economy around the world.

Line of Business Experian Asia Pacific
Department: Credit Services
Position Title: Data Analyst Senior
Work Location: Sydney

To assist with the growth of new Credit Services business, we are looking for an experienced individual to monitor, research and analyse incoming data to our bureau and ensure quality is maintained in data files at all times. You will be the technical link between sales, consumer operations and our clients. You will work with data sources to develop and maintain relationships with data suppliers to support our customer direct marketing activities.

The successful candidate will have the following attributes:

- Strong knowledge of programming methods, technical applications, data processing platforms and network protocols.
- Extensive knowledge of Unix operating system and basic Unix commands.
- Strong knowledge of PC desktop applications
- Good knowledge of SQL/programming language
- An understanding of consumer credit policies, procedures and regulations
- Can demonstrate strong relationship building skills.
- Strong oral and written communication skills
- Exceptional organisational, prioritising and time management skills.
- Strong problem solving and analytical skills

The responsibilities of this role entail:

- Setting up utility jobs to process data on the mainframe.
- Communicating with data contributor on a regular basis regarding any changes or discrepancies in data.
- Coordinating the resolution of data quality issues with data operations and technical systems personnel.
- Providing client support for the import and export of data files from supported platforms.
- Researching and resolving media and data issues.
- Working with internal departments and external clients in a variety of functional areas to coordinate issue resolution.
- Updating communication and procedure logs and ensuring best practice is followed in line with legislation developments.

We offer successful applicants an attractive remuneration package (inc corporate benefits). Interested parties should send a full resume to careers@au.experian.com and quote the vacancy job title above.

All information provided by the applicant will be treated in strict confidence and used for recruitment purposes only.

At Experian, we respect, value and welcome diversity in potential candidates and our people. We have a diverse workforce where talent thrives and where we continually seek to open up more career and development opportunities for all of our people.
